SUB-GRANTEE PROGRESS REPORT

Monthly progress reports should adequately convey specific activities, progress, achievements, and difficulties encountered throughout the reporting period. The structure of this report should concisely convey the accomplishment of activities and the resulting impacts, or challenges that are preventing completion of the grant funded project including needed action by the HS SAA.

On 11/23/2021, the approved equipment was ordered from Selex ES, Inc. The equipment has been received and is pending installation by the vendor upon availability of a technician to do so. The installation has requested through the vendor and pending. The goal of acquiring the equipment for use has been accomplished. The estimated in-service date for the equipment is late January 2022 to early February 2022. The entire award amount of $59,000 was expended with additional monies provided from the budget of the Sheriff of Raleigh County to purchase and additional LPR unit for use by the Raleigh County Sheriff's Office. Also, as a part of this grant funding, one LPR Unit that was previously installed on a Beckley PD Cruiser will be reinstalled for use. The unit was removed due to the vehicle it was on being taken out of service.
